REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: applicant recites a three dimensional label for a container comprising a clear material with a graphic template formed on a bottom surface thereof, wherein the graphic template is configured to form a raised portion of the label extending away from the surface of the container having only a vacancy between the raised portion of the label and the surface of the container. The label is further comprised of a flat portion, which is flush with the container and an adhesive material only on the flat portion of the label thereby attaching the label to the surface of the container.

The prior art made of reference, taken singularly or in combination, does not adequately disclose the features recited in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
